

INDUSTRY-LEADING ENERGY STAR® CERTIFIED VENTILATION SOLUTIONS FROM BROAN®

Broan is committed to protecting the environment and helping consumers lower energy bills. We are proud to offer well over 100 Energy Star certified models in ventilation fans and kitchen range hoods.

ENERGY STAR CERTIFIED VENTILATION FANS

BROAN'S ENERGY STAR CERTIFIED LINEUP INCLUDES MODELS WITH:

- **Multi-speed or SmartSense LinkLogic communication technology** for continuous ventilation of modern buildings
- **Humidity or motion-sensing** for efficient, hands-free operation
- **LED fan/light combinations** for maximum efficiency and long life
- **Recessed and decorative fan/light combos** for great look and fit
- **Fans with Bluetooth speakers** for the ultimate bathroom experience

Broan also proudly offers ULTRA Green™ Series ventilation fans with DC motors, which deliver:

- Energy efficiency nearly 10 times greater than Energy Star requirements
- Ultra-quiet <0.3 Sones operation

ENERGY STAR CERTIFIED KITCHEN HOODS

BROAN INTRODUCED ENERGY STAR TO KITCHEN VENTILATION

Broan was the first to offer Energy Star certified range hoods in the U.S. and today features the broadest line of kitchen ventilation products in North America. Broan has been – and continues to be – a trusted name in kitchen ventilation.

Features of these range hoods include:

- Efficient operation for lower utility bills
- HVI certification to verify ventilation effectiveness
- Quiet and efficient blowers for healthier air and a more enjoyable experience

In addition to offering consumers a full range of efficient ventilation solutions, Broan manufacturing, warehousing and office facilities continually invest in new and upgraded systems to lower energy usage and protect the environment.
